La Grippe's Legacy.

Worn out and exhausted in body and mind, with shattered nerves and a palpitating heart; no desire for food The Appropriations Made by and no ability to digest it; unable to rest or sleep day or night-this is La Grippe's legacy. Long after the grip germs have been driven out the poisons which they created remain in the blood, the heart, the lungs, the stom: ach, weakening the nerves and lower ing the vitality of the system. There is one way of destroying the seeds of disease and death which are an inberitance from grip. Dr. Miles' Nervine will do it. It gives the sha tered nerves a rest and helps them to recover their strength. It stimulates the appetite, strengthens the stomach assists assimilations and fills the blood with the vital elements of life.

"Two years ago, after a severe attack of the grip, I was overcome with nervous prostration, heart trouble and nervous dyspepsia. I wen so low that I could not bear to be spoken to, and and during the nervous spasms which I frequently suffered, I had no control of any of my organs. Every remedy knows to my physician, was tried without success and then my wife brought me a bottle of Dr. Miles Nervine. After using one bettle I could speak a few words. At the end of three months I could talk quite naturally and now I am completely cured of the trouble.' GEO. A. ANDAEWS,

MR. CANNON SUMS UP

the Fifty-Fifth United States Congress.

TOTAL OF \$1,566,890,016

Of This Enormous Sum \$482,562,083 Is Chargeable Directly to the War. Expenses Compared With Those of the Fifty Fourth Congress-Increase

Washington, March 6.-The official statement of Representative Joseph G. Cannon of Illinois, chairman of the house appropriations committee, summing up the appropriations of the Fiftyfifth congress, shows an aggregate appropriation by the entire congress of \$1,566,890,016, and for the session just closed a total of \$673,658,400, with authority for contracts subject to future appropriations amounting to \$70,000,000. Chairman Cannon's statement in part

"The appropriations made at the session of congress just closed amount approximately to \$678,658,400, and show

an apparent reduction of \$219,573,000 under the appropriations made at the preceding session.

"This is attributable to the large expenses occasioned by the war with Spain that were provided for during the prepeding session.

"The entire appropriations made by the Fifty-fifth congress aggregate \$1,- finance, is regarded as the strongest 566,890,016.28. Of this sum \$482,562,-083.47 is directly chargeable to our late premier. He is an able financier and war with Spain or incident thereto.

remainder, \$1,084,827,632.81, represents the ordinary or normal appropriations made by the Fifty-fifth congress.

"The appropriations made by the preceding congress, the Fifty-fourth, amounted to \$1,044,580,273.87. A comparison shows an increase in ordinary appropriations made by this congress over those made by the Fifty-fourth congress, \$89,747,000; but this apparent increase is more than accounted for by increases under eight items alone, namely, for pensions, \$4,000,000; for the postal service, \$16,000,000; for rivers and har- fortification of the coasts, and general bors, including work under contracts financial reorganization. The premier previously authorized, \$3,600,000; for has already invited presidents of chamnew ships for the navy, \$6,000,000; for bers of commerce and agriculture beginning the work of the 12th census, throughout the country to repair to \$1,000,000; for the Paris exposition, \$1,-200,000; for new public buildings, including the building for the department of justice, and for sight and partial construction of the new government printingoffice, about \$5,000,000; and for payment of judgments rendered against band of 2,000 deserters from the Spanish the government on account of French spoliations and under the Bowman act,

"The appropriations of the original 'billion dollar congress' amounted to \$1,035,680,109.94. The appropriations of the congress just ended reach the mighty aggregate of \$1,566,890,016.28. It is fair to deduct from this total \$482, 562,083.47, made necessary to meet the liabilities of the Spanish war. So, if we deduct from the grand total the liabilities on account of the war with Spain, priations of the congress just ended, to meet the ordinary governmental expenses, exceed those of the preceding (Fifty-fourth) congress by \$39,747,

Fifty Thousand Kilograms of Black Explosive Leave a Scene Like a Volcanic Eruption-One Man Completely Scalped-Windows Shattered and Doors Battered In Miles Away.

Forty corpses have already been recovered. The cause of the explosion is not known.

Fifty thousand kilograms of black powder exploded. It looks as though a volcanic eruption had occurred, the country being swept almost bare within had been in continuous session for all a radius of two miles, houses destroyed most 24 hours in clearing the calenders trees overturned and distorted, fields devastated and covered with stones and impalpable black dust.

Some of the stones are enormous. One weighing 50 kilograms fell in the suburb of Pone de Las. Signs of the explosion are evident in all the subarbs of Toulon and in the city itself. Even at St. Jean de Var, five miles distant, windows were shattered and doors battered in. Later reports show that of the seven sentries, four were killed outright and the others severely injured, the corporal being literally scalped and the scalp overhanging his face like a veil.

A large number of soldiers are now employed is clearing away the debris, but the work is very difficult.

It is impossible to ascertain accurately the number killed, but it is believed that no fewer than 100 were injured.

suddenness and swept everything in its path. It was accompanied by the terrific roar usually attending cyclones Frightened inhabitants rushed for their cellars and places of safety. In the country great damage was done to orchards and crops by the wind and hail. It is reported that further casualties resulted in outlying rural districts, but no particulars can be obtained.

The most frightful feature of the terrible tornado was the manner in which Jack Moser met his death. He was hurled by the wind's force from his house, a distance of 700 yards, until his progress was impeded by a wire fence. which completely severed his head from the body. The remains were found in that condition by the rescuing party. The little 12-year-old son of Mr. and Mrs. Moser was in their home with them, but he was blessed with a mirac ulous escape, not receiving a scratch.

THE House did a good day's work when it killed Hedgecock's fee and salamy bill. There is no immediate demand for a revision and an increase of salsries of county officers. There are precious few, if any, who do not get sufficient pay for their services. It is right that they should be well paid for the duties they perform and that responsibilities they bear. The executive committee of the Southern Indiana Press Association is perfecting arrangements for the meetng here March 24. There will probably be an afternoon and an evening session. It is hoped that the meeting will be one of the most profitable since the association was organized.

By the way, the Southern Indiana Press Association was organized in Seymour eight years ago, and now that it omes back to hold a meeting with us a hearty welcome should be extended.

The last meeting was held at Vinsennes where the people fairly outdid themselves entertaining the visiting pencil pushers. But all went away having something nice to say about Vincennes and her people and her industries all of which brought profitable results. OMENS ON WARSHIPS.

SUPERSTITIONS WHICH GOVERN OLD SALTS OF THE NAVY.

Hoodoos and Spells Which May Work A!1 Sorts of Evils on Board and Which Must Be Carefully Guarded Against. The Tattooing Habit.

The most picturesque superstitions of the seas are those which govern a modern man-o'-war. Every old salt in the navy believes in hoodoos and spells which may work all sorts of evils on his ship and must be carefully guarded

The powers of a ship's hoodoos commence before the ship has entered the water. It is a generally accepted superstition that if the first blow which is struck the keel brings sparks the ship is destined to suffer from a raking fire from the enemy.

The old time practice of stealing a piece of wood and imbedding it in the prow for good luck is, of course, impossible in the case of steel ships, though it is considered lucky to have a piece of

Another old superstition is satisfied by placing a silver coin in some crevice of the fighting top of the mainmast or some place below decks where it touches the steel mast. Originally it was a very common custom to imbed a silver coin, and preferably a Spanish coin, in the wooden steps near the mast.

Figureheads have been in high favor with sailors from remote antiquity. Originally they were carved to represent some god or saint. Even today a sailor would hesitate to sail on an iron-

clad without such protection. The ceremony of launching a ship is merely a concession to an old superstition. The various formalities of ship christening have been followed with

little variation for centuries. In the early days of shipbuilding it was the custom for the captain and the crew to eat their first meal stowed away in the mold loft. Their meal invariably consisted of eggs and sulphur. From this custom has come the present day practice of providing cakes and wine for the crew. And the old libation which the priests used to pour over the prow of the ship as she slipped into the water has been replaced by the breaking of a bottle of champagne

The modern man-of-war dashes into the water with flags waving from every masthead. In order to gratify this old superstition it has been necessary to expend hundreds of dollars for the christening of a single ship. But no one begrudges this extravagance. In a way it is necessary.

The good or ill luck of certain days s still a belief among the sailors. Friday is a day of ill omen, and Sunday is

usually a lucky day. A superstition about women is a relic of the old belief in witchcraft. It is thought that a woman by throwing sand extensive use of it for whooping cough in the air on shipboard can produce violent storms. Not many years ago some women who traveled on English varships were tortured during a storm

> These barbaric beliefs, however, are partially compensated by the superstition which sailors have held for centu ries that beautiful children bring a blessing to a ship. The Neck was a handsome boy with golden curls. It is said that he is always accompanied by a black lamb and carries with him a golden harp. Our old salts have especial confidence in a ship which is christened by a child.

The average sailor is superstitious about the ringing of the ship's bells. In olden times the bells were blessed before they were used. At present, if a mistake is made in striking the hour, the sailors insis; that the bells at once be struck backwards to break the spell, and if by any chance the wind should catch the bells and swing them all the way around, or if they strike nine bells, it is believed that it will be the last of that ship.

All good warships go to the "shores of Fiddler's Green" as a final resting place. Just where this mythical harbor is situated no geographer has yet decided. It is in every way the antithesis of "Davy Jones' locker." A warship which goes down in battle with her flags flying, as occurred several times during the civil war, goes to "Fiddler's Green.

The tattooing habit is, of course, very common in the navy. It is believed that an arm or a leg decorated with the design of a gun or a sword or some such design will never be lost in battle .-San Francisco Call.

A Real Utopia.

Dunwich, Moreton bay, Queensland, consists of about 1,000 inhabitants. In four years there have only been two births and two deaths.

There are no streets, no omnibuses or trains, no soldiers, no police, no shops. There is a beautiful theater, and every one is admitted free. Clothes are free, and so are food and lodging. Very few do any work, and there are no hotels. Very little money is required, and medical attendance is free.

There is a lockup, but that is not used. There is also a postoffice, and if short of money the letters are stamped free. There is also a free hospital and library. - London Tit-Bits.

TE A CHEAT MISTAKE.

Daughters of wealthy men who fall in love with their fathers' employees are not entirely restricted to novels, There is a Chicago merchant whose confidential man has for some time been a suitor for his daughter's hand. There is another departure from tradition in the fact that his love affair is not as violently opposed as it might be. He is a thoroughly capable and upright fellow, and his prospective father-in-law probably doesn't see why he wouldn's do just as well as a clubman or perhaps a nobleman for his daughter's husband. Of course the two lovers like to be as much as possible in each other's company and try all sorts of little schemes and inventions to bring this

DONOR OHT THE WRONG IMPRESSION

Read This Carefully

Do not get the wrong impression of proprie tary medicines. Because you have been cheated by buying them in the past, you must not think that they are all alike, fo they are not. There are many preparation on the market that equal or exceed anything that physicians have prescribed. There are some, however, that are frauds, and the manufacturers should be punished for de frauding innocent purchasers. However, be cause you have been defrauded in the past, i and ever ready to administer kind no reason why you should look upon every manufacturer as dishonest. Morrow's Kidne-oids are purely and wholly a scientific preparation and have been severely tested. They are not some mixup or decoction by those who know nothing of drugs and their strength nor by some grandma or auntie who took a handful of this and a pinch of that nesses and brave deeds and that our and boiled it up and soaked it in whisky and called it a great cure. Morrow's Kid-ne-oid: are carefully made of the purest drugs and compounds to be had. Then they are placed small wood boxes so there is no danger of greakage in carrying or shipping. They are made into small Yellow Tablets (not pills which make them easy to take, without stopping in the throat. PRIMARY ELECTION BILL

Senate Sustains the Governor's Vetoe of the Columbus Hospital Bill. Indianapolis Sentinel Criticised by Democratic Senators.

Indianapolis, March 6.—Both houses spent Saturday in finishing up the small amount of unfinished business, and adjourned until today. Nothing of any importance was done in the house, the business transacted being limited to concurring in senate amendments to bills and in receiving a few messages from the governor.

The Glossbrenner primary election bill failed to pass the senate. The senate also refused to pass the Columbus hospital bill appropriating \$120,000, over the governor's veto,

The bill regulating the salaries of the ounty officers of the state was killed. A bill to compel the Associated Press to sell its news to all papers willing to pay the regulated price for it, failed to pass the senate after a lengthy discussion. A number of senators made bitter speeches against the Associated Press, declaring it was simply a newspaper trnst and against public policy. In this connection the Democrats of the senate asked the Republicans to vote for the bill so that a new daily could be established in Indianapolis to be the state organ of Democracy in Indiana, in place of the Indianapolis Sentinel, whom the Democrats of the senate denounced in bitter language, based upon the attack that paper made on Senator Drummond, Democrat, a few days ago.
